

BIOLOGICAL EXPOSURE TO THE FACE

- Flush the infected area in an eye wash station for 15 minutes.
- NOTE: If the accident generates an aerosol (i.e. spill outside the biosafety cabinet) leave the laboratory promptly and follow the response procedures at a safer location. Identify a backup location prior to initiation of work.
- Notify the Principal Investigator or Supervisor (if available) to initiate accident or exposure incident report. (Principal Investigator or Supervisor must notify Environmental Health and Safety at 203-785-3555.).
- Seek medical assistance immediately in Yale Health's Acute Care Department. Have a co-worker call ahead at 203-432-0123 to alert them you are coming. You must arrive at Employee Health or Acute Care within one to two hours.
