

Personal and Post-Experimental Monitoring Checklist

The following areas should be monitored after each experiment which involves radioisotopes. Please be sure that the proper survey instrument is used. Wipe tests are required for ^3H work.

PI: _____ Building: _____ Room Number: _____

Name	Date	Personal Survey			Work Area Survey				Notes
		Hands	Body	Shoes	Workbench	Floor	Equipment	Regular Trash	

Please indicate any contamination found and results after cleaning. Personal or clothing contamination, spills, and areas of unexpected contamination should be reported to Radiation Safety immediately at 785-3555.
