

RESTRICTED ITEMS REQUIRING PRE-ORDER APPROVAL

Restricted Item	Approval Contact	Description
Biological 	EHS (approval) 203-785-3550	RDNA Select Agents Toxins Viruses
Controlled Substances (regulated drugs) 	EHS (approval and license) 203-737-2121 Procurement (orders) 203-432-9955	Controlled substances including scheduled drugs and certain drug precursors Must have State DCD license and Federal DEA registration (processed by EHS) Refer to policy: http://ehs.yale.edu/sites/default/files/files/controlled-substances-research-use-labs.pdf Use Spend Category SC057
Hazardous Materials Chemical 	Procurement (orders) 203-432-9955 EHS (approval) 203-785-3550	Defective pathogen vectors and vector kits DHS-regulated chemicals High hazard compounds Highly reactive compounds Highly toxic chemicals Human pathogens Pyrophoric compounds Select agents as defined by CDC/USDA Toxic compressed gases Please consult the following lists for the most current information: Restricted Chemicals: http://ehs.yale.edu/sites/default/files/files/chemicals-ehs-approval.pdf Select Agents: https://www.selectagents.gov/SelectAgentsandToxinsList.html
Radioactive Materials 	Procurement (orders) 203-432-9955 EHS (approval) 203-785-3550	Radioactive material included by-product, source, special nuclear, accelerator produced, Generally Licensed, or naturally occurring material Use Spend Category SC137
Safety-Critical Equipment  	Procurement (orders) 203-432-9955 EHS (approval) 203-785-3550	Autoclaves Automated external defibrillation (AED) devices Automated film processors Biological safety cabinets Clean Benches (Horizontal or Vertical Laminar Flow) Compressed Gas lecture bottles Compressed Gas manifold delivery systems Cranes and hoists Drones a.k.a. Unmanned Air Vehicles/Systems (UAV/UAS) copters, planes, radio, controlled aircrafts Electron microscopes Emergency eye washes and safety showers Ethylene oxide sterilizers Forklifts and related motorized equipment Fume hoods Gamma counters (or gamma detectors) Glove boxes High speed cell sorter High strength magnetic field equipment Lasers-Class 3B/4 Lead bricks, aprons or other lead shielding Liquid scintillation counters (LSC) Respirators and replacement cartridges and filters Tools greater than ½ horsepower (HP) http://ehs.yale.edu/sites/default/files/files/tool-classification-matrix.pdf Tritium ³ H exit signs X-ray generating equipment
