

Task Lighting
overview

Illuminate the Workplace

Advances in technology and increasing flexibility let people work where and how they like. Whether working in a mobile environment or at a dedicated workspace, workers need well-lit spaces in order to be productive and feel their best. Proper illumination reduces eyestrain, headaches and fatigue, and helps workers focus on the task at hand.¹

Task lighting thoughtfully placed throughout a work environment is essential, helping workers focus with ease and encouraging productivity and wellbeing.

SUSTAINABILITY

At its heart, sustainability at Steelcase is about people. It's about creating and supporting the economic, environmental and social conditions that allow people and communities to reach their full potential.

Research and insights direct our path. It's not only about creating goods, it's about creating good. It's not only about creating value, it's about living our values. It's not just about reducing our footprint, it's about expanding our reach. It's about creating lasting and meaningful change to enable the long-term wellbeing of current and future generations.

Innovative products and solutions result. In the development of our products, we work to consider each stage of the life cycle: from materials extraction, production, transport, use and reuse, until the end of its life. We demonstrate performance through third-party verified certifications and voluntary product declarations.

Steelcase's sustainability promises, actions, and results are communicated in an annual Corporate Sustainability Report.
