

Confined Space - Temporary Declassification Form

Applicability: A permit-required confined space (PRCS) qualifies for temporary declassification only if both of these conditions are met: a) no actual or potential atmospheric hazards exist and b) all other hazards associated with the space can be eliminated from outside the space for the duration of the entry by means such as LOTO. If these conditions are not met before entry, the permit-required confined space procedure and entry permit must be followed.
