
POWERED INDUSTRIAL TRUCKS

Are your operators trained?

By definition a Powered Industrial Truck (PIT) is any mobile power-propelled truck used to carry, push, pull, lift, stack or tier materials. Powered industrial trucks can be ridden or controlled by a walking operator. The following illustrations serve as a guide to help you determine if PIT training may be needed. To verify training requirements or to schedule training please send an inquiry to ehs@yale.edu.

Do Require Powered Industrial Truck Training

Do NOT Require Powered Industrial Truck Training
